

Chancellor's Weekend Memo

Dr. Michael Eric Dyson visits the Downtown Campus.

Great News!

We were pleased to participate in the REBUILD Detroit announcement of the \$21.2 million granted by the National Institutes of Health to WCCCD, Wayne State University, University of Detroit Mercy and Marygrove College to build a pathway for diversity in the biomedical sciences. Dr. George Swan along with Dr. Stephanie Bulger, Ms. Shawna Forbes and Ms. CharMaine Hines served as my representative in helping to announce the partnership that will align programs and services among partner institutions and offer opportunities for our students to engage in research, move seamlessly to consortium colleges and universities to pursue advanced degrees and benefit from scholarships, mentoring and internships sponsored through the initiative. This is the first time that all four institutions will be linked together and a transformative moment for higher education in Detroit.

Professional Development

The District hosted Dr. Ghebrebrhan Ogubazghi, Former Academic Vice President of Eritrea Institute of Technology. Dr. Ogubazghi shared his experiences conducting research under difficult conditions. Dr. Ogubazghi also presented a brief description of seismic monitoring in eastern and southern Africa.

Downtown Campus hosts Townhall meeting

District Police Authority

United States Marshal Services

District Police Authority and MIPSE met with the U. S. Marshals Service to discuss evacuation plans for the Federal Courthouse. The U.S. Marshal Services is updating their evacuation plan and is looking at the Downtown Campus as a backup site. This is another example of the District efforts to strengthen and build positive partnerships with other law enforcement and government agencies.

Halloween Safety Tips

Halloween is an exciting time of year for kids, and to help ensure they have a safe holiday, here are some tips from the American Academy of Pediatrics.

- A parent or responsible adult should always accompany young children.
- If your older children are going alone, plan a route and specific return time.
- Only go to homes with a porch light on and never enter a home or car for a treat.
- Stay in a group and communicate where they will be going.
- Remember reflective tape for costumes and trick-or-treat bags.
- Remain on well-lit streets and always use the sidewalk.
- If no sidewalk is available, walk at the far edge of the roadway facing traffic.
- Never cut across yards or use alleys.
- Only cross the street as a group in established crosswalks. Never cross between parked cars or out driveways.
- Don't assume the right of way. Motorists may have trouble seeing trick-or-treaters.
- Law enforcement authorities should be notified immediately of any suspicious or unlawful activity.

WEEKLY UPDATE

Service Desk

As part of the Information Technology Transformation Plan (ITTP), the Division of Information Technology (IT) implemented an enhanced incident reporting solution (formerly known as “Helpdesk”). Service Desk is an automated incident response and problem resolution for a quick and effective remediation of end user incidents, systemic problems and essential managed changes.

Features include:

- Enhanced and interactive solution
- Reduces service interruption time
- Drives innovation by automating common IT processes and adopting new technologies to provide support District-wide

Immediate Benefits:

For End-users

- Seamless ticket submittal system
- Alerts users when tickets are received and timeline of completion

For IT staff

- Better reporting tool
- Built in communication tool for team for better troubleshooting techniques

Look for training sessions at District-wide Conference Day!

Office of Accountability and Transparency

The Continuous Quality Improvement Audit Center collects, reviews and conducts monthly reconciliations and on-going audits of all District data. A systematic approach is used to procure data from multiple sources, allowing for collective knowledge through accountability and transparency.

The Continuous Quality Improvement Center has been conducting best practices research on educational facilities specifically at their shipping and receiving design. WCCCD is in the process of transforming the current shipping and receiving into its structural redesign as the Distribution Center. All inventory received is logged, tagged where appropriate and shipped out expediently. We have enhanced district forms to ensure accountability of all procured goods for proper distribution and tracking of inventory.

Meet the District Director, Risk Management

Sead Livadic is the District Director, Risk Management. He will be leading the District Distribution Center's alignment of services for ensuring all goods are received, logged, processed and delivered in a timely manner. His knowledge and expertise will expand the success of the WCCCD's Distribution Center.

International Programs and Global Partnerships

Country Profile: Albania

According to Global Detroit, Metro Detroit has the world's largest concentration of Albanians outside of Europe. While Macomb County has the highest current concentration of Albanian immigrants locally we have seen a few Albanian students come through our doors. one student is Alda Jance, who writes the following about why she came to WCCCD and her experiences thus far.

"I chose WCCCD because it gives me the best bang for my bucks. It has great teachers who teach at the level of standard four-year college. The quality of education is high and the school fee is low. I also chose WCCCD because of its student diversity. I love meeting new people from different parts of the world. I am pursuing an Associate of Science degree in preparation for a degree in Clinical Laboratory Science at a four-year university."
