Summer Interns and Trio Students on an Underground Railroad History Tour

Division of Student Services

The Month of July at each Campus Location!

Throughout the month of July there will be an open house at each campus to meet and assist prospective students. New students can meet face-to-face with WCCCD professional staff to assist them with the admissions process, financial aid, campus tours and learn more about the array of student and community services offered at each campus.

ReBUILD Scholars Summer Enrichment Program

In support of our ReBUILD scholars, the Division of Student Services administered the COMPASS pre-assessment. This instrument will help to indicate a “starting point” for the participants of the Summer Enrichment Program.

The Student Executive Council

The Student Executive Council met to discuss their participation in Welcome Wednesdays. Students will be available to assist staff and interact with the community.

WCCCD TRIO-SSS participants recently took a campus tour of Western Michigan University. Workshops focused on the admissions process for transfer students; financial aid and scholarship opportunities; as well as academic programs, support services and student activities.

District Police Authority

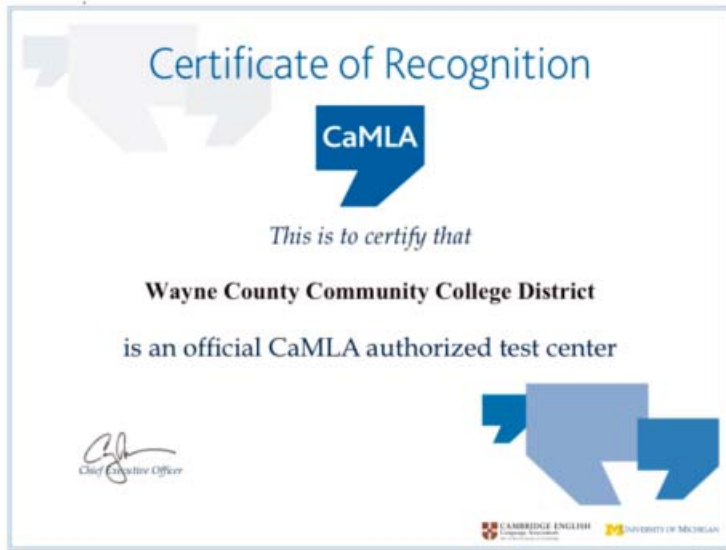

College Policing Training

Members of the Police Authority Department participated in higher education policing training with James Baylor.

International Programs and Global Partnerships

It is official!

WCCCD is now a fully authorized Cambridge Michigan Language Assessments (CaMLA) testing center. This means the District will now be able to administer the Michigan English Language Assessment Battery (MELAB) - an intermediate to advanced level standardized examination for adult non-native speakers of English.

Institutional Advancement and Alumni Affairs

Scholarships are gifts, simply for the fact that they don't need to be re-paid. Muna Khoury is currently working with Clenetta Frazier of Marathon Petroleum Company in establishing a new scholarship opportunity for students interested in the career programs.

The four scholarships will support STEM education, nursing and information technology programs.

Division of Educational Affairs

Center for Learning Technology

WCCCD's Center for Learning Technology encourages faculty to provide the best online classroom environment for learning as possible. It is up to the instructor to guide the communication in class. Having students post 2-3 responses, questions, or comments to a reading assignment or to a question posed by the faculty is more focused than simply requiring that students post 2-3 times to the discussion each week.

WCCCD and the WSU School of Mortuary Science

Dr. George Swan and Dr. Ronald Harkness met with Howard Normile, Dr. Peter Frade, and Mark Evely from Wayne State University to strengthen the alignment and articulation between the District's pre-Mortuary Science Program and the University Mortuary Science Department.

Climbing Laddered Approaches!

As part of the ReBUILD Scholar's Summer Enrichment Program, Dr. Ron Harkness spoke with students about the importance of a Program of Study. Discussion included laddered approaches to education, identification of a career path, and additional sources of educational information which help students make educated choices about their academic career.

WEEKLY UPDATE

Cisco VoIP Project Update

What's Happening Now?

Phase I of the VoIP project is underway at the Northwest Campus. The Siemens phones are being replaced with Cisco 8861 phones. The Cisco phone is configured to only provide the same current features and functionalities of the existing Siemens phone. A basic training on how to guide and an overview of the Cisco 8861 phone was provided to staff. A total of eight training sessions over a period of two days were available to ensure all staff members at the campus participated.

The VoIP technology has many advanced and sophisticated features that the District can utilize to provide an efficient and managed communication platform. The Chancellor and the Executive Team will discuss and decide which features to implement based on the District's need.

Mystery Calls Continue Across the District

New members of the School of Continuing Education and Workforce Development team were acclimated to the district by participating in the Chancellor’s Cabinet meeting represented by each campus administration and divisions operating the District.

Division of Administration and Finance

The Division of Administration and Finance continues to work closely with Follett Higher Education Group during their acquisition of the District's campus bookstores to ensure a smooth transition. This acquisition will provide the campus stores with more inventory and more options to our students. Over the past week Follett has been installing all new registers and computer systems at each location. This upgrade will allow the store to deliver greater efficiencies and gain access to an extensive supplier network and their leading national course materials distribution system.
