## Faculty Focus

Adrian Muratalla-Zapien, Current WCCCD Student with professor Dr. Nwamba.

Adrian writes;

*“Coming from the Metro Detroit Area to the Ann Arbor, MI was a positive change. Before applying for the Summer Research Program, my daily schedule was attending class in the morning and afterwards headed to work in the afternoon. Arriving, I met other Medical & Science Undergrads enrolled into other summer research programs. I am paired with WCCCD post-doc Fellow, Victor Cazares, Ph.D. researcher from the Molecular and Neuroscience Institute at Murphy Lab. My work began by doing training on laboratory procedures to obtain my certifications to operate inside Murphy Lab. After each was completed, my mentor instructed me on the Cell Culture preparation.”*
