Students at the Great Wall

“Opening my Eyes to the World Beyond my Village!”

“The years that I have directed the WCCCD Study Abroad Program have taught me to be humble. It has opened the eyes of our students to a new horizon.”

“Even in Pleebo, Liberia, a place of limited opportunity and resources, the lives of my students and me as their teacher were enriched by an awareness and international perspective.”

“I believe that every student should study abroad because I believe that globalization is here to stay.”

“I’ve seen advertisements for Singapore around the Ted Scott Campus! In my classes there have been people mentioning it and wondering if it were “worth it”... I always tell them YES! Are you serious!?!? I tell them about all the amazing experiences and memories and even new friends I made during the opportunity to study abroad! I wish so bad that we were allowed to participate in more than one trip. It was such an amazing experience that I am still soooooo amazingly grateful for. This article made me feel nostalgic!” ~Terri Johnson
