North American Lithium-Ion Battery Supply Chain Database

For the more than 600 facilities in the directory, the database provides:

- Company name
- Website URL
- Facility in North America for the segment identified
- Facility address
- Products or services offered at the facility
- Approximate size of the company's overall workforce in North America, when available
- Headquarter company, location, and website
- Installed battery manufacturing capacity (in gigawatt-hours) and material production capability (in tons per year), plans for future capacity, types of chemistries and processes, and expansion plans by sector (e.g., transportation, stationary), when available

Connecting Minority Communities (CMC) Grant – Project Update

The WCCCD CMC Grant team is excited to announce that login credentials for all CompTIA and TestOut students have been distributed! Phase two will commence next week with course access for students registered for AWS, Microsoft, and Google courses. Both populations combined will provide access to free certifications to more than 400 students. We are thrilled to embark on this journey with our students.

In the team meeting this week, staff from the Divisions of Information Technology, Administration and Finance and Workforce and Economic Development focused on grant procurements, communication schedule, laptop loan distribution, and more.

Through the Connecting Minority Communities (CMC) Pilot Program, WCCCD has forged strategic partnerships with AWS, CompTIA, and Udemy. This collaboration provides students, faculty, and staff with complimentary access to an extensive library of online training modules. This initiative ensures that all participants can enhance their skills without incurring any costs, fully equipping them for success in their academic and professional endeavors.

IT Staff Meeting

Staff met to discuss project updates including, Banner support for Student Services and Financial Aid, Security Infrastructure Project update as well as upcoming initiatives and staff alignment.

District-wide Camera Replacement Project

The District-wide camera replacement initiative is currently in progress at the Curtis L. Ivery Downtown and Eastern campuses with fifteen Axis 360 cameras replaced.

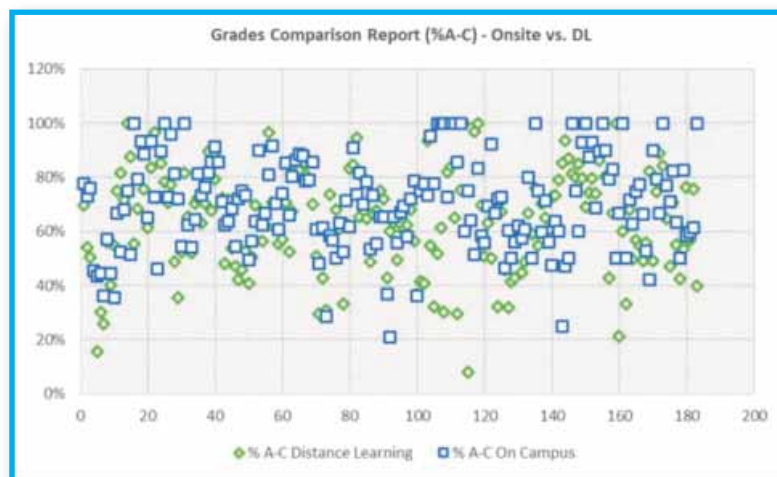

Institutional Effectiveness

The Division of Institutional Effectiveness is working on several new reports to better understand drivers for student success. Credit momentum continues to be a critical factor for retention, persistence, and completion. The Community College Resource Center (CCRC) defines program momentum as “the successful completion of at least 9 credits in the first year toward their field of study.” Pat Caldwell presented preliminary findings of successful course completion in both campus-based and distance learning to better understand course areas that may need student learning support.

Pat Caldwell shared graphs of identified course areas where students completed their course work at higher rates by discipline. These factors are important for the following initiatives:

- Helping streamline the early alert system to identify students who may need additional support.
- Providing course areas for educational affairs to address course sequencing for programs.
- Advance development of dashboards to support credit momentum across modalities.

The scholarship recognizes men enrolled in degree programs who choose a career in early childhood education.

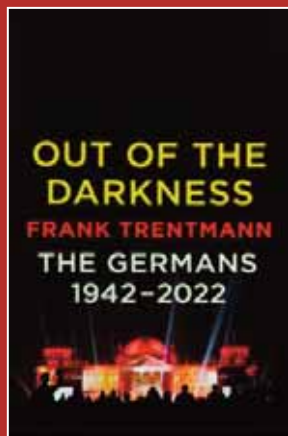

DR. RANDALL MILLER SHARES LEADERSHIP THOUGHTS WITH EXECUTIVE TEAM

How do you Overcome Procrastination?

When complex or sensitive issues arise in higher education, the common approach is for the leader to appoint a task force to study it and report findings. That action often leads to a joke that this is the best way to kill any action at all regarding the issue being studied. If the leader is not results-oriented, that joke may be very real and commonly repeated. However, if the leader is results-oriented and not willing to stand for inaction or procrastination, there would be no tolerance for the joke of inaction. But where do you start? Action-oriented leaders know that the issue is not going to resolve itself. While input and a report of findings from a task force are welcome and encouraged, ultimately it is the leader who is responsible to develop both a strategy and a solution for that complex and sensitive issue.

Highly successful organizations value good leadership at all levels, and it is the leader at the top of that organization who sets the tone. How often have we all heard that whether good or bad, leadership starts at the top and is replicated throughout the organization?
